

GLOSSARY

A new scientific discipline must employ new terms if old ones are inapplicable. Orgonomy introduced the following terms:

ANORGONIA. The condition of diminished or lacking orgonity (q.v.).

ARMOR. See character armor, muscular armor.

BIONS. Energy vesicles representing transitional stages between non-living and living substance. They constantly form in nature by a process of disintegration of inorganic and organic matter, which process it has been possible to reproduce experimentally. They are charged with orgone energy (q.v.), i.e., Life Energy and may develop into protozoa and bacteria.

CHARACTER. An individual's typical structure, his stereotype manner of acting and reacting. The orgonomic concept of character is functional and biological, and not a static, psychological or moralistic concept.

CHARACTER-ANALYSIS. Originally a modification of the customary psychoanalytic technique of symptom analysis, by the inclusion of the character and character resistance into the therapeutic process. However, the discovery of the muscular armor necessitated the further development of a new technique, namely vegetotherapy. The later discovery or organismic orgone energy ("bioenergy") and the concentration of atmospheric orgone energy with an orgone energy accumulator necessitated the further development of character-analytic vegetotherapy into an inclusive, biophysical orgone therapy. (See physical and psychiatric orgone therapy.)

CHARACTER ARMOR. The sum total of typical character attitudes, which an individual develops as a blocking against his emotional excitations, resulting in rigidity of the body, lack of emotional contact, "deadness". Functionally identical with the muscular armor. (q.v.)

CHARACTER, GENITAL. The un-neurotic character structure, which does not suffer from sexual stasis and, therefore, is capable of natural self-regulation on the basis of orgasmic potency.

CHARACTER, NEUROTIC. The character which, due to chronic bio-energetic stasis operates according to the principle of compulsive moral regulation.

EMOTIONAL PLAGUE. The neurotic character in destructive action on the social scene.

MUSCULAR ARMOR. The sum total of the muscular attitudes (chronic muscular spasms) which an individual develops as a block against the breakthrough of emotions and organ sensations, in particular anxiety, rage, and sexual excitation.

ORGASM. The unitary involuntary convulsion of the total organism at the acme of the genital embrace. This reflex, because of its involuntary character and the prevailing orgasm anxiety, is blocked in most humans of civilizations which suppress infantile and adolescent genitality.

ORGASTIC IMPOTENCE. The absence of orgasmic potency. It is the most important characteristic of the average human of today, and - by damming up biological (orgone) energy in the organism - provides the source of energy for all kinds of biopathic symptoms and social irrationalism.

ORGASTIC POTENCY. Essentially, the capacity for complete surrender to the involuntary convulsion of the organism and complete discharge of the excitation at the acme of the genital embrace. It is always lacking in neurotic individuals. It presupposes the presence or establishment of the genital character, i.e. absence of a pathological character armor and muscular armor. Orgasmic potency is usually not distinguished from erectile and ejaculative potency, both of which are only prerequisites of orgasmic potency.

ORGONE ENERGY. Primordial Cosmic Energy; universally present and demonstrable visually, thermally, electroscopically and by means of Geiger-Mueller counters. In the living organism: Bio-energy, Life Energy. Discovered by Wilhelm Reich between 1936 and 1940.

ORANUR denotes orgone energy in a state of excitation induced by nuclear energy. (DOR denotes Deadly OR energy.)

ORGONE THERAPY.

Physical Orgone Therapy: Application of physical orgone energy concentrated in an orgone energy accumulator to increase the natural bio-energetic resistance of the organism against disease.

Psychiatric Orgone Therapy: Mobilization of the orgone energy in the organism, i.e. the liberation of biophysical emotions from muscular and character armorings with the goal of establishing, if possible, orgasmic potency.

ORGONITY. The condition of containing orgone energy; the quantity of orgone energy contained.

ORGONOMETRY. Quantitative orgonomic research.

ORGONOMIC ("ENERGETIC") FUNCTIONALISM. The functional thought technique which guides clinical and experimental orgone research. The guiding principle is that of the identity of variations in their common functioning principle (CFP). This thought technique grew in the course of the study of human character formation and led to the discovery of the functional organismic and cosmic orgone energy, thereby proving itself to be the correct mirroring of both living and non-living basic natural processes.

ORGONOMY. The natural science of the cosmic orgone energy.

ORGONOTIC. Qualities concerning the orgonity of a system or a condition.

SEX-ECONOMY. The body of knowledge within Orgonomy which deals with the economy of the biological (orgone) energy in the organism, with its energy household.

STASIS. The damming-up of Life Energy in the organism, thus the source of energy for biopathy and irrationalism.

STASIS ANXIETY. The anxiety caused by the stasis of sexual energy in the center of the organism ~~xxx~~ when its peripheral orgasmic discharge is inhibited.

STASIS NEUROSIIS. All somatic disturbances which are the immediate result of the stasis of sexual energy, with stasis anxiety at its core.

WORK DEMOCRACY. The functioning of the natural and intrinsically rational work relationships between human beings. The concept of work democracy represents the established reality (not the ideology) of these relationships which, though usually distorted because of prevailing armoring and irrational political ideologies, are nevertheless at the basis of all social achievement.

Projeto Arte Org Redescobrimo e reinterpretando W. Reich

Caro Leitor

Infelizmente, no que se refere a orgonomia, seguir os passos de Wilhelm Reich e de sua equipe de investigadores é uma questão bastante difícil, polêmica e contraditória, cheia de diferentes interpretações que mais confundem do que ajudam.

Por isto, nós decidimos trabalhar com o material bibliográfico presente nos microfilmes (Wilhelm Reich Collected Works Microfilms) em forma de PDF, disponibilizados por Eva Reich que já se encontra circulado pela internet, e que abarca o desenvolvimento da orgonomia de 1941 a 1957.

Dividimos este “material” de acordo com as revistas publicadas pelo instituto de orgonomia do qual o Reich era o diretor.

01- International Journal of Sex Economy and Orgone Research (1942-1945).

02- Orgone Energy Bulletin (1949-1953)

03- CORE Cosmic Orgone Engineering (1954-1956)

E logo dividimos estas revistas de acordo com seus artigos, apresentando-os de forma separada (em PDF), o que facilita a organizá-los por assunto ou temas.

Assim, cada qual pode seguir o rumo de suas leituras de acordo com os temas de seu interesse.

Todo o material estará disponível em inglês na nuvem e poderá ser acessado a partir de nossas páginas Web.

Sendo que nosso intuito aqui é simplesmente divulgar a orgonomia, e as questões que a ela se refere, de acordo com o próprio Reich e seus colaboradores diretos relativos e restritos ao tempo e momento do próprio Reich.

Quanto ao caminho e as postulações de cada um destes colaboradores depois da morte de Reich, já é uma questão que extrapola nossas possibilidades e nossos interesses. Sendo que aqui somente podemos ser responsáveis por nós mesmos e com muitas restrições.

Alguns destes artigos, de acordo com nossas possibilidades e interesse, já estamos traduzindo.

Não somos tradutores especializados e, portanto, pedimos a sua compreensão para possíveis erros que venham a encontrar.
